

Finishing Course

Finishing course is defined as "a course for students that emphasize training in all round personality development, cultural and social activities. Specific skill sets is imparted as value addition. It follows a school or college education. It is intended to complete the educational experience.

Objectives of Finishing Course

- To train the students by incorporating learning, skills and self-development in addition to curriculum that is entertaining, stimulating and rewarding.
- To help students to master the human relation skills demanded in today's time.
- To create a path that would transform the students into leaders of the future.

Outcomes of finishing Course

The course outcomes include boosting one's confidence, communication and language speaking abilities, widening ones scope of knowledge, developing certain hobbies or skills, learning fine etiquettes and manners, adding style and grace to the way one looks, talks and walks and overall imbibing oneself with positivity, liveliness and peace. In turn, one individual will evolve as competent personnel for an industry and other pharmaceutical areas.
